

TWISTER™

Twister Hybrid Tool Black, diamond honing segments

Technical data sheet

Product description:

Black Plastic holder with resin bound diamond pellets.

Intended use:

The Twister Hybrid tools are mounted on Twister Hybrid holder with Twister™ Hybrid Red. Used for honing and deep cleaning of stone and stone-like flooring material.

Durability and limitations:

Lifespan up to 10 000 m² (optimal use).

Product Characteristics:

6 resin bound diamond pellets on a Black triangular shaped plastic plate. Velcro on backside for attachment to Twister Hybrid Holder.

**Directions for use:**

1. Dry mop the floor. Dry mopping improves the honing and deep cleaning result.
2. Mount the Twister™ Hybrid Red and the Twister Hybrid Tool Black segments on the Twister Hybrid Holder. Mount the holder on the machine's pad holder.
3. Hone the floor

Maintenance of segments:

Rinse after each use.

Packaging:

6 Segments/package.

Special Features:

Honing and deep cleaning method using only water. No chemicals requiBlack.

Intended for stone and stone-like floors.

Twister™ Hybrid is used for renovation of stone and stone-like floors. The honing is to be followed by Twister™ upgrade procedure.
